BADU® ECO-TOUCH

## The green pump that saves you money

NOW WITH 6-STAR RATING

A sparkling, clean pool is no longer a drain on your pocket or the environment.

The BADU EcoTouch 3-speed pump decreases power usage and Carbon emissions, lowers energy costs and reduces noise levels – which keeps everyone happy.

- 3 speeds – 1900 rpm (filtration and circulation), 2410 rpm (manual vacuuming) or 2850 rpm (high speed for more efficient backwashing)
- Virtually noiseless at low speed
- Significantly reduces energy usage depending on method of operation
- Totally enclosed, fan cooled, permanent magnet brushless DC motor for simple servicing
- Motor double sealed for total separation between the pool water and the pump shaft
- German design and engineering combined for ultimate efficiency
- Can be used for pool water with a salt level of up to 5000ppm
- Corrosion resistant with the use of stainless steel shaft and high quality, 100% recyclable plastics
- 2-part screw on/screw off lid

By operating the revolutionary BADU Eco Touch pump across its three speeds, you can save over 80% of the energy consumed by running a normal 1hp pump.

Annual Energy Usage — Single Speed Pump / Eco-Touch — KwH Per Annum

Reduced Noise Levels — Standard Pump / Competitor / Eco-Touch — dBa @ 1m

Flow Rate — Height in Metres / Litres per Minute

WARRANTY

Five (5) year Factory Warranty on the following wet end components: Casing, Diffuser, Gland Housing, Impeller and Mechanical Seal. Two (2) year warranty on motor and in all commercial applications.
