Super Efficient Multi-Speed Pump with remote control

Something you may want to know:

Unlike most multi-speed pumps the **Gemini Twin** is powered by a traditional induction motor that has been proven to stand the test of time.

We won't make astronomical claims on dollars saved. The facts are that a typical 1.25HP pool pump costs approximately \$600 per year to operate.*

The Gemini Twin like all multi-speed pumps can slash these costs if operated effectively. But with the added benefits of proven motor technology, simple operation, hand held remote control and unique operating modes.

WHY WOULD YOU CHOOSE ANYTHING ELSE?

* Traditional 1.25HP pool pump costs based on running your pump for 8 hour /day at \$0.20/kWH.

Gemini Twin Remote Control

The Gemini Twin features a remote control with a range of up to 30 metres. All features of the pump can be controlled by pressing the corresponding buttons on the remote:

Sync-Auto

Activates Auto cycling of pump speed or changes cycle order.

Stop

Switches the pump to Standby mode immediately (also cancels Auto mode and Boosta mode in case of emergency)

Low Speed

Switches the pump to Low speed mode.

High Speed

Switches the pump to High speed mode.

Auxiliary

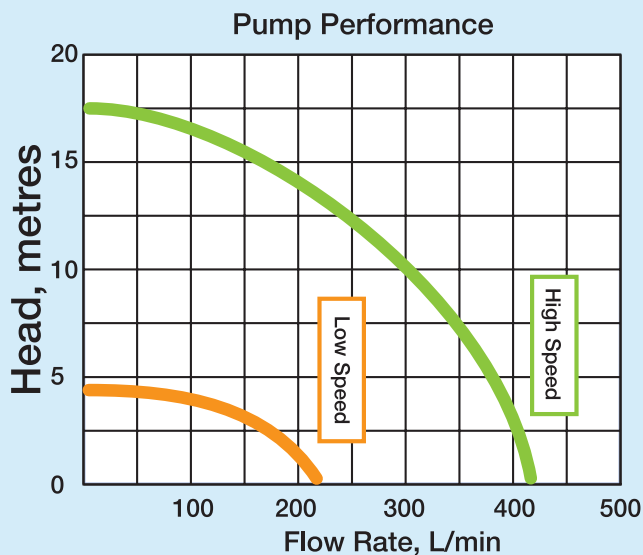

Feature compatible only with TEKNO D1 Controller.

Boosta

Switches the pump to high speed for 30 minutes, then returns to it's previous mode.

Safe -  - Lok™ enable

• Performance: Flow Rates

• Features

- Ability to run pump during off peak electricity times.
- Remote control included as standard.
- Pre-set modes.
- Safe-T-Lok enabled - safety feature to stop pump immediately via the remote control in case of an emergency.
- Super quiet operation in all installations.
- Proudly Australian designed & manufactured.
- Extremely reliable and proven induction motor technology for longevity.

• Modes: High and Low Speed

- **High and Low speeds** for optimised performance and energy saving.
- **Auto Mode** automatically alternates between high and low speed to sync with cleaning and skimming cycles.
- **Boosta Mode** is designed to run for 30 mins to quickly clean the pool before swimming.

• Warranty

- **2 YEAR PUMP AND MOTOR**
- **10 YEAR HOUSING**
