

ENVIRO-CLEAN

THE EASY & EFFECTIVE WAY TO CLEAN ALL TYPES OF FILTERS.

Lo-Chlor ENVIRO-CLEAN is a new, highly effective and versatile **Filter Cleaner**.

It contains a brand new formulation which has been designed to both enhance the efficacy of the job that it performs as well as making its usage as easy and economical for the pool owner as is possible.

WHAT IT IS

- ✔ It is an **eco-friendly** water soluble **filter cleaner**
- ✔ It is a **fast acting, easy** and **efficient way**, to clean filters.
- ✔ It is suitable for **all types of filters** and **all forms of filter media**.
- ✔ It is both **natural** and **biodegradable** and is **environmentally safe** with the chosen media.

BENEFITS

- ✔ It efficiently **removes grime, organic build up, metals** and **calcium deposits** that may have built up on a filter.
- ✔ It is particularly effective at **removing oils, body fats** and **suntan lotions** etc.
 - It does so by breaking them down and making them soluble and this makes it far easier to clean **all forms of filter media** by rinsing and backwashing.
- ✔ Using **ENVIRO-CLEAN** will also **prolong the life span** of both the **filter** and the **filter media** and will enhance **chemical performance** subsequent to use.
- ✔ It is the perfect way to both **thoroughly clean** and **rejuvenate** filters.

HOW TO APPLY

- ✔ For **Sand, Glass** or **Zeolite Filters** - there are 2 alternative methods that can be used
 1. Add **1 litre** of **ENVIRO-CLEAN** into the skimmer box
 2. Add **1 litre** of **ENVIRO-CLEAN** directly into the filter
- ✔ Then follow label instruction for both methods.

For Cartridge and D.E. Filters

- ✔ Place the cartridge into a garbage bin or a similarly sized container
- ✔ At the rate of **50:1**, dilute **ENVIRO-CLEAN** with cold water and follow label instructions.
- ✔ The best results will be obtained when the soiled elements are **hosed down** prior to using **ENVIRO-CLEAN** to remove as much debris as possible

AVAILABLE SIZES

It is available in **1 litre** and **20 litre** sizes.

FREQUENCY

We recommend that **Cartridge** and **D.E. Filters** are **cleaned regularly as required** and that **Sand** (and other media) **Filters** are cleaned at least twice yearly.
