

Pacifica Spa Series- XL 80 All-In-One System

World's First All-In-One Ozone Venturi System

Are you tired of having employees put check valves in backwards? Frustrated with extra ozone tubing running nowhere? Looking for 220V or 120V? They are both inside the XL 80 with our Universal Power Supply.

Aqua Sun Ozone's newest product, the XL 80, offers powerful sanitizing action with the use of ozone. A Plug-N-Play design optimizes user-friendly installation and comes with easy-to-install directions. The XL 80 features a dual check valve configuration to prevent backflow. The ozonator is made to minimize Nitric Acid build up and to maximize ozone concentration in water. Compact and reliable, this all-in-one sanitizer is setting new standards for portable spa sanitation.

Specifications

- Integrated Ozone Injection Delivery System (IOIDS)
- Power Input: 100V-240V Universal Power Supply
- Dimensions: (H) 7 ¾" (W) 6 ¾" (D) 2 ¼"
- Check Valve: Two Inline Check Valves
- Air Inlet: Filtered Ambient Air
- Outlet: ¾" OD Barb Fitting
- Ozone Output: Variable 50mg-100mg

Injector Specifications

- Outgassing 30% less than industry standard injector. 60% less than comparable PVC injector
- Integral cavity mixing chamber maximizes mass transfer
- Fewer bubbles introduced into spa water for quieter operation
- Constructed of industry-proven PVDF ozone resistant material
- Optimized for operation at 3-6 GPM

Patent Pending

Warranty

Two Year
