# pH ACID CONTROLLER / pH ACID FEEDER

## KEY FEATURES

- ✓ Automatic acid dosing system to maintain safe pH/acid levels
- ✓ Compatible with all brands & models of chlorinators
- ✓ Suits all pool surfaces
- ✓ Can operate as a standalone unit
- ✓ Prevents scaling and corrosion of pool surface and equipment
- ✓ Commercial grade peristaltic tube and roller
- ✓ Easy to install and use
- ✓ Protective LCD cover with easy-access controls for reliable performance

| PRODUCT MATERIALS | |
|---|---|
| Squeeze Tube | Tygon® Norprene® (Commercial Spec) |
| Case Pump Inspection Window | Clear Acrylic |
| Non-Return Injector Valve | PVC with Viton Sleeve |
| Tubing | 6m x 6mm Clear Flexible PVC |
| Roller Block | Heavy Duty Glass Filled Nylon |
| Casing Materials | Glass Filled Polypropylene |
| Power Cord | Approved Piggy-back Type |
| Water Connection Fitting | Clear Acrylic Interface to 40/50mm Pipe |

| PRODUCT SPECIFICATIONS | |
|---|---|
| Volts Input | 220-240V |
| Amps Input - Max. (ac) | 0.1A |
| Total Power Consumption | 13W Motor / 20W Total |
| Frequency | 50Hz |
| Output Controlled by Sanitiser | 0-1000ml per hour |
| Rated Pressure | 350kPa (optimum for injector is 150kPa) |
| Motor Speed | 10RPM |
| Wall Mounting | Click ON - Clip OFF Bracket |
| Water Flow Rate | 80-650L/min |
| Ingress Protection Rating | IP35 |

| PRODUCT DIMENSIONS | |
|---|---|
| pH Controller Dimensions (mm) | W130 x H215 x D130 |
| Net Weight (kg) | 2.5 |

The Neptune X-Pro pH Acid Controller ensures your pH is maintained at the correct level by automatically dosing the amount of hydrochloric acid needed to maintain appropriate pH levels.

Incorrect pH levels of your swimming pool water can cause skin/eye irritation, cloudy water, corrosion of pool surfaces/equipment, and alters the effectiveness of your sanitiser.

The Neptune X-Pro pH Acid Controller is compatible with all brands & models of chlorinators including Neptune NDC, Pool Pro MineralX and Neptune X-Eco chlorinators.
